COMMISSIONER OF PATENTS AND TRADEMARKS
 Washington, D. C. 20231

**DECLARATION OF FACTS IN SUPPORT OF PETITION TO MAKE SPECIAL
 BECAUSE OF ACTUAL INFRINGEMENT (MPEP §708.02)**

I, Peter M. Redford hereby declare:

1. I am the President and Chief Executive Officer of TV Interactive Corporation, 2150 Trade Zone Boulevard, Suite 201, San Jose, CA 95131, which is the Assignee of the above-identified Application.
2. On or about November 17, 1994 I was informed that a competitor (the "Infringer") of TV Interactive Corporation is introducing into the marketplace a software product (the "Infringing Device") including code that when executed on a personal computer looks for a file of a predetermined name on a compact disk (CD) whenever the CD is inserted in a CD-ROM drive of the personal computer.
3. On information and belief, the Infringing Device includes methods and structures substantially the same as an invention disclosed and claimed in the above-identified Patent Application.
4. On information and belief, the Infringer has supplied at least one version of the Infringing Device to at least one software developer on or about November 1, 1994.
5. On information and belief, the Infringer is currently offering at least one version of the Infringing Device for beta test by software developers.
6. On information and belief, the Infringer loaded and executed the Infringing Device on a personal computer at Consumer Electronics Show held in Las Vegas, Nevada on or about January 6, 1995.
7. On information and belief, the Infringer is currently selling the Infringing Device.
8. On December 13, 1994 I met with my patent attorney, Omkar K. Suryadevara. Mr. Suryadevara and I compared execution of the Infringing Device on a personal computer with the claims now pending in the above-identified Patent Application, including Claims 63 to 76 originally submitted in parent U.S. Patent Application 08/269,492 filed on July 1, 1994, that is the parent of the above-identified application.

5. On December 13, 1994, Peter M. Redford, an inventor of the above-cited Patent Application and President and Chief Executive Officer of the Assignee, discussed with me a software product (the "Infringing Device"), which includes code that when executed in a personal computer looks for a file of a predetermined name on a compact disc (CD) whenever the CD is inserted into a CD-ROM drive.
6. I have compared information on the Infringing Device with the claims now pending in this Application, including Claims 63 to 76 (originally submitted in parent U.S. Patent Application 08/269,492 filed on July 1, 1994).
